

Project Plus offers internationally recognised project management certifications and credentials for a range of different project management experience and capability.

These certifications and credentials are delivered to you by industry leading facilitators in a professional, interactive and educational environment.

Project Plus is a registered education provider with PMI® and an accredited training organisation with APM Group. We are also a registered training establishment with NZQA.

These accreditations make the Project Plus credential and certification programmes highly desirable and valued both in New Zealand and throughout the world.
